SPECIAL DEVELOPMENT FUND

The Special Development Fund aids IMU to fulfill the important obligation of helping developing countries within the framework of mathematical research. The means of the Fund, which go un-reduced to mathematicians from developing countries, are used primarily for travel grants to young mathematicians, to make them possible to participate in International Congresses of Mathematicians. The Executive Committee of IMU elects an international committee to distribute the grants.

Means to the Special Development Fund come from donations. Donations can be sent at any time and in any convertible currency, to the following accounts:

Schweizerische Kreditanstalt
Stadtfiliale Zürich-Rigiplatz
Universitätstrasse 105
CH-8033 Zürich
Switzerland
Account number 0862-656208-21

Kansallis-Osake-Pankki
Aleksanterinkatu 42
SF-00100 Helsinki 10
Finland
Account number 100020-411-USD-5705 FR.

The next goal is to collect money for travel grants for the 1986 International Congress of Mathematicians in Berkeley.

On behalf of the whole Union, the Executive Committee expresses its deep gratitude to the Wiskundig Genootschap (Netherlands) for the donation of Dfl 3000 to the Special Development Fund.

Dear Sirs,

In accordance with your instructions, we have prepared from the Union's accounts and from the information and explanations supplied to us by the Executive Secretary the balance sheet, statement of income and expenditure and annexed notes for the year ended December 31, 1982.

Report of the auditors to the INTERNATIONAL MATHEMATICAL UNION.

Transactions and costs in JAPAN and in the UNITED STATES OF AMERICA relating to the World Directory of Mathematicians have been included in the following Financial Statements based on information supplied to us by the persons concerned in the respective countries. We are unable to form an opinion regarding this information.

In accordance with Note 4 to the accounts stocks of World Mathematicians Directories have not been evaluated for accounts purposes.

In our opinion, subject to the foregoing comments regarding the World Directory of Mathematicians, for which the Union expensed in 1982 \$ 20 516 (see note 8), the balance sheet and the income and expenditure accounts set out on page 2 to 3 together with the notes attached thereto give a true and fair view of the state of affairs of the INTERNATIONAL MATHEMATICAL UNION at December 31, 1982.

The notes set out on pages 4 to 7 form an integral part of these accounts.

Notes to be read in connection with the financial statements

Principal accounting principles:

1. CURRENCY

The financial statements are expressed in US dollars. Balances in other currencies have been translated into US dollars by applying the UNESCO standard rates of exchange as at December 31, 1982.

Income and expenditure for the year was translated at the rates applying at the date of payment, except for transactions in connection with the World Directory of Mathematicians which were translated at the UNESCO average rate for 1982.

These standard rates closely follow quoted market rates.

2. INCOME

Contributions and grants have been recorded on a cash basis as in previous years. That is to say only contributions actually received during the year have been taken as income. Therefore, no account has been taken of contributions due but not received by December 31, 1982.

3. EXPENDITURE

Expenditure is recorded on an accruals basis. That is to say all expenses incurred during the year have been included in the accounts whether paid or not.

4. STOCK OF MATHEMATICIANS DIRECTORIES

As in previous years no account has been taken in these accounts for the stock of directories in existence at December 31, 1982.
